## NSN 6630-01-042-2632

Electrolytic Solution Analyzer - Page 1 of 1

View Online at https://aerobasegroup.com/nsn/6630-01-042-2632

Height:
7.250 inches
Current Type:
Ac
Frequency Rating:
400.0 hertz
Test Type For Which Designed:
Monitor purity of distilled or demineralized water, water/glycol solutions, and rinse from electroplating, used for measure and control of
chemical concentrations
Analysis Test/measurement Range:
0.75/15.0 megohm
Depth:
10.000 inches
Voltage In Volts:
115.0
Special Features:
Meter, conductivity
Width:
8.000 inches
Shelf Life:
N/a
Unit Of Measure:
<del></del>
Demilitarization:
No
Fiig:
A503u0
