General Description:

115v, 50/60 hz, depth 21 in., height 12 in., width 36 in., wavelength range 450 to 700 mu, optical accuracy 0.015 o.D. Unit, servo pen system
1.5 seconds full scale, measurement range 0 to 0.5 o.D. Unit full scale, 8 sample positions across membrane, buffer capacity-285 milliliters

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No
