Body Diameter:

12.0 millimeters

Body Length:

150.0 millimeters

Accessory Components And Quantity:

Instruction/service data for proper usage

Electrical Lead Length:

30.000 inches

Features Provided:

Integral preconditioning solution vial and rugged bulb and shielded

Body Material:

Plastic epoxy clear

Instrument Type For Which Designed:

Ph meter

Industry Designated Name:

Combination ph/reference

Ph Measurement Range:

+0.00/+13.99

Operating Temperature Range:

0.0 degrees celsius plus and 100.0 degrees celsius plus

Internal Reference Element Type:

Silver/silver chloride

Err Default:

Err default

Err Default:

Err default

Special Features:

Electrode response time does not exceed 30 seconds

Unit Of Issue Cube:

0.013 cubic feet

Unit Of Issue Weight:

0.50 pounds

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A506n0
