Usage Design:

Colorimetric analysis

Color Range:

+0.0/+40.0 ppb oxygen

Primary Container Type:

Ampul

Primary Container Unit Quantity:

30

Total Primary Container Quantity:

1

Product Name:

Chemet ampuls

Special Features:

Vacuum sealed; contains color forming reagent; refill ampuls for nsn 6635-01-044-6065; for routine analysis of deaerated boiler feed water or oil well applications where sea water is monitored for corrosion control

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T149-b
