General Description:

Total mass concentration measurement range 18-5000 microgram/cubic meter; 3 modules each 22.2 cm h, 42.9 cm w, 42.5 cm d; collection flow rate 9 l/min nom, particle size collection range 0.1-100 micrometers, max vertical air intake duct length 7 m; 115 vac, 60 hz, single phase, 700 w max; dual sampling head configuration, high volume inlet plenum, analog output board

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No
