Extra Long Reference Number:

00-374000-00/1040/1070/2010/6010/5010

General Description:

0.25 in. Heated injector body, capillary system, flame ionization detector, fid electrometer module, automatic linear temp program; 100-132 vac, 50/60 hz, 2160 w max, 18 a

Reference Number Differentiating Characteristics:

As differentiated by detector controller and oven temperature programmer

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A23900
