Extra Long Reference Number:

2300-00/2300-803/2399-825/2300-d-820/2300-404/20000-61010

General Description:

32k semiconductor memory, 16 bit word cpu, 700 nanosec cycle time; top loading dual disc drive with 5 megaword storage capacity; single quadrupole mass spectrometer interface module; power supply module; 300 baud modem; three 52 in. Standing cabinets; additional 5 megaword top loading disc drive; 1200 baud board to 300 baud vadic modem chassis; printronix 300 printer/plotter; 10.5 in., 9-track magnetic tape system, 800 bpi, 45 ips; additional peripherals control board interface

Fsc Application Data:

Gas chromatography/mass spectrometry system

Reference Number Differentiating Characteristics:

As differentiated by printer/plotter, magnetic tape system, and peripherals control board interface

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No
