Product Name:

Titration clinical 115 volt ac 60 hz

Exterior Container Weight:

8.00 pounds

Unit Of Issue Cube:

0.2088 cubic feet

General Description:

Clinical; manual; titrant capacity, 1.1 ml; with adjustable buret; revolving turntable; pump with 100 division calibrated dial for controlling amount of titrant delivered; lamp switch; sample size 0.05 ml; accessories, dust cover 1, lamp, fluorescent 1, lamp, ultraviolet 1, micropipetting system, 0.05 ml capacity type 1, shield, ultraviolet 1, tip, disposable 500, titration cup 200, instruction manual; power requirement 115 vac, 60 hz, 55 watts; for calcium reagent set, order 6550-01-092-0112, for chloride reagent set, order 6550-01-024-6428; used in clinical chemistry examinations

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A23900
