Current Type:

Ac

Detection Range In Percent:

+0.0/+2.0 and +0.0/+100.0

Voltage In Volts:

115.0

Special Features:

Single channel with dual full range; internal span gas calibration and sample vacuum pump; mechanical ref. Calibration filter; recorder output; portable, accessories: sampling probe, 5 ml sampling tube, absorbent cotton, 2 amp fuse, o-ring 4, span gas canister 2, dust filters 10, instruction manual

Functional Description:

Monitors carbon monoxide, carbon dioxide, methane, ethylene, ethane, propane & butane

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T398-d
