General Description:

All-glass capillary system, cool injector septum holder, extra large column oven-1350 cubic in. W/removable door, automatic linear temperature programmer, flame ionization detector, column oven size 10 in. H, 15 in. W, 9 in. D, temp range 12 degrees c above ambient to 420 degrees c, heat-up time 50 to 400 degrees c in 12 min at line voltage of 120 vac

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No
