End Application:

Measures electrical conductivity of jet and diesel fuels

Special Features:

Portable, battery powered, range 0 to 2000 picosiemens, push button measure and auto-calibrate, finish is solvent resistant paint, stainless steel probes, 3 1/2 x 1 1/2 x 4 1/2 inch

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:
