Accessory Components And Quantity:

1 brass test cup, 1 stirrer coupling, 6 igniters, 1 detection cable, 10 fuses, 1 sample thermometer

Design Type:

Closed

Heating Element Phase:

Single

Heating Method:

Electrical

Thermometer Range:

+100.0/+250.0 degrees celsius

Thermometer Quantity:

1

Element Quantity:

1

Test Unit Quantity:

1

Special Features:

Pensky-martens automatic flash point tester 1n accordance with astm d93 closed cup method a and b

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T398-b
