Product Name:

Analyzer ambient air miran sapphire 30

Exterior Container Weight:

20.00 pounds

Special Features:

Miran sapphire 30; calibrated for 30 single gas applications-30 gas library; has capability of compensating for changes in temperature pressure, reference wavelength, and humidity; lightweight and portable; ergonomically designed; 8 line, 40 character display that prompts user through every step; sub-ppm and ppb detection using a long-path ir bench; calibrated for one multi-component application per the user's specifications; mcn 6630-00-c07-6125

Unit Of Issue Cube:

3.00 cubic feet

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No
