Features Provided:

Batch processing and digital display screen and integral autosampling system and integral printer and self-calibration

Method Of Analysis:

Fluorometric

Test Sample/specimen Size:

135 microliters

Test Sample/specimen Type:

Whole blood and aqueous for qc

Special Features:

Fluorescence, reflectance

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A503u0
