Body Length:

2.750 inches

End Application:

Container assembly

Instrument Type For Which Designed:

Ph meter

Industry Designated Name:

Resistivity cell

Special Features:

100 psig at 100 degree c 200 psig at 120 degree c with option 316ss fitting; insulator polytetrafluoroethylene; o-rings epr; electrodes 316 ss or titanium; fitting polpropylene; 3/4 inch mnpt polypropylene filling; 10 ft (3 meters) of 4 conductor shielded cable with stripped andtinned terminations on cable strands; cell constant 0.05; 100kiloohms and 5.49kiloohms at 25 degree c

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A506n0
