Body Length:

6.250 inches

Features Provided:

Rugged bulb

Body Material:

Glass

Product Name:

Electrode ph measurement range 0.00 to 14.00

Instrument Type For Which Designed:

Ph meter

Industry Designated Name:

Ph combination rugged

Ph Measurement Range:

+0.00/+14.00

Internal Reference Element Type:

Silver chloride w/ion exchange barrier

Err Default:

Err default

Err Default:

Err default

Special Features:

Body diameter (12.7/6.35mm); operating temperature range 0 to 100 degrees fahrenheit; glass electrodes are chemical resistant and a good choice for measurements of aqueous and non-aqueous solutions

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A506n0
