Height:

2.7 millimeters

Current Type:

Dc

Accessory Components And Quantity:

Test strips, 10; normal control solution, 1; penlet ii automatic blood sampler, 1; lancets, 10; check strip, 1; carrying case, 1; logbook, 1; owner's booklet, 1; size j battery, 1

Test Type For Which Designed:

Blood glucose monitoring

Features Provided:

Alpha-numeric keypad

Method Of Analysis:

Kinetic enzyme/rate test

Analysis Test/measurement Range:

0-33.3 mmol/l or 0-600 mg/dl

Test Sample/specimen Size:

1 drop whole blood

Err Default:

Err default

Test Sample/specimen Type:

Whole blood

Depth:

12.1 millimeters

Special Features:

R6-character, 14-segment lcd; weight approx 135 g (including battery); operating temp range 15 degrees c to 35 degrees c; operating humidity range 0-90 percent relative humidity (non-condensing); accurate results in 45 seconds

Width:

6.7 millimeters

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A503u0
