Overall Depth:

5.062 inches

Overall Height:

4.935 inches

Overall Width:

8.375 inches

Current Type:

Ac

End Application:

Five ton liq

Carrying Handle:

Not included

Corrosion Resistant Feature:

Included

Detection Range In Percent:

+0.0/+100.0

Analysis Cell Type:

Rapid response

Sample Type:

Flowing

Voltage In Volts:

115.0 and 230.0

Special Features:

Compact, lightweight, rugged analyzer incorporating a cell block that ensures extremely accurate and fast analysis of oxygen levels in a sample gas; high accuracy and sensitivity over a wide range of temps achieved w/patent pending cell block design and proprietary electronics; provides continuous temp compensation between 5-45 degrees c; metallic cell block; revolutionary flow through design; zero and span gases not required; extended life, low cost electrochemical sensor specific to oxygen; 2 form c relays 3a, programmable logic alarms; 9 month expected shelf life; approx weight: 5 lbs; easy to read 3 1/2 digit lcd; 3 position selector switch: 0-10%, 0-25% and 0-100%

Frequency In Hertz:

50.0 or 60.0

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T398-d
