Design Type:

Closed

Heating Element Voltage In Volts:

115.0

Heating Method:

Electrical

Heating Element Type:

Electric

Thermometer Range:

+0.0/+300.0 degrees celsius

Thermometer Quantity:

1

Test Unit Quantity:

1

Special Features:

For routine flash point tests in the range from m30 to p300 deg. C; stainless steel test cup/lid and shutter

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T398-b
