**Test Type For Which Designed:**

Serum, plasma, urine, csf

**Method Of Analysis:**

Colorimetric and potentiometric/ion selective electrode

**Err Default:**

Err default

**Test Sample/specimen Size:**

10 through 11 picoliters

**Err Default:**

Err default

**Err Default:**

Err default

**Special Features:**

Sample capacity, 40 samples, 4 trays of 10 samples; program capability type 10050 samples

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A503u0
