Current Type:

Dc

Detection Range In Percent:

+0.0/+100.0

Analysis Cell Type:

Rapid response

Response Time:

7.0 seconds

Special Features:

Maintenance free sensor; rechargeable nicad batteries; integral recharge circuit; pushbutton activated built-in pump; air calibration, no zero or span gases; requires no warm up

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T398-d
