Test Type For Which Designed:

Hematology cell counter, whole blood calibrator

Method Of Analysis:

Kinetic enzyme/rate test

Special Features:

Pbench top system; closed sampling; uses only 2 reagents; qc protocol stores 31 separate runs in 10 control files; hematology cell counter/analyzer/whole blood calibrator; 18 parameter automation; 3 part differential

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A503u0
