Test Type For Which Designed:

Measures turbidity

Operating Test Capability:

Turbidity range from 0.1 to 400 ntu/fnu

Special Features:

A pocket turbidity analysis system iso 7027; includes sample cells, stablcal primary standards silicone oil and oiling cloth, batteries, manual and carrying case. Accuracy +/-5% or +/-0.1 ntu/fnu

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T228-a
