Overall Length:

18.000 inches

Overall Height:

7.000 inches

Overall Width:

17.000 inches

General Description:

Operating conditions - 5 degrees c to 45 degrees c; internal power consumption - 24 (dc), 30 watts at normal operating conditions; carrier gas - nitrogen; person/field portable; integral concentrator, analytical/survey modes of operation; built-in national institute of standards and technology (nist) and amd is mass spectral libraries

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A23900
