Body Diameter:

12.0 millimeters

Body Length:

110.0 millimeters

Body Material:

Glass

Instrument Type For Which Designed:

Ph meter

Industry Designated Name:

Sealed double junction ph

Ph Measurement Range:

+0.00/+13.00

Operating Temperature Range:

0.0 degrees celsius plus and 110.0 degrees celsius plus

Special Features:

Double junction refillable internal reference element

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A506n0
