Features Provided:

Computer monitor

Method Of Analysis:

Spectroscopic

Test Sample/specimen Size:

1.0 microliters

Test Sample/specimen Type:

Centrifuged urine

Special Features:

Provides a twelve-test profile including nine chemistries, processes bar code specimen tubes in 10 position racks by mixing, sampling, and analyzing automatically

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A503u0
