Body Diameter:

12.0 millimeters

Body Length:

130.0 millimeters

Body Material:

Glass

Instrument Type For Which Designed:

Ph meter

Industry Designated Name:

Special purpose electrode

Operating Temperature Range:

248.0 degrees celsius plus

Err Default:

Err default

Internal Reference Element Type:

Silver/silver chloride

Err Default:

Err default

Special Features:

High temperature kno3 gel; withstands high temperatures and chemical attacks

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A506n0
