End Application:

GASC-HR-OMA-TOGR

Product Name:

Filters cellulose acetate sterile 0.80u' 100ml 50s

Special Features:

Cellulose acetate sterile filters; 0.80u" acrylic housing; triton-free and have a bidirectional membrane support and luer lock inlet/outlet f/a secure fit to the syringe; diameter: 25mm; sterile; color: green; capacity: 100ml; for sterilization and clarification of aqueous solutions; retention volume: less than 0.1ml; mas. Pressure: 75psi at 25deg.C

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No
