Special Features:

Mercury analyzer that determines mercury in coal, combustion residues, and soils; analyzes sample in five minutes; complies with u.S. Epa method 7343, mercury in solids and solutions by thermal decomposition, amalgamation and atomic absorption spectrophotometry, and astm method d-6722, test method for total mercury in coal and coal combustion residues by direct combustion analysis

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:
