Petroleum Testing Kit - Page 1 of 1

View Online at https://aerobasegroup.com/nsn/6630-01-556-2789

Special Features:
This is the 115volt u.S. Version; sample capaci type 600ml or more; test temperature 100 degrees celcius to 380 degrees celcius;
differential pressure 0 to 300 mmhg; system pressure 500 psig porm 10 percent; has automatic built-in safety system; menu driven
programming; continuous computer control of all test functions and operational parameters; system is used to evaluate the oxidation stability
of jet fuel
Specification Data:
1y2s6astm d 3241 professional/industrial association standard
Shelf Life:
N/a

Demilitarization:

Unit Of Measure:

Model Number: Jftot 230 mark iii

No

Fiig:

A23800
