Model Number:

Jftot 230 mark iii

Special Features:

This is the 230volt international version; sample capacity 600ml or more test temperature 100 degrees celcius to 380 degrees celcius; differential pressure 0 to 300 mmhg; system pressure 500 psig form 10 percent; has automatic built-in safety system; menu driven programming; continuous computer control of all testfunctions and operational parameters; system is used to evaluate the oxidation stability of jet fuel

Specification Data:

1y2s6astm d 3241 professional/industrial association standard

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A23800
