End Application:

Czech republic army

Component Quantity:

1

Product Name:

Elsd

Special Features:

Integrates with any hplc; windows based interface; seven different languages; stores up to 100 methods; simple maintenance; full iq/oq/pq protocols included; light source laser diode; detector element silicon photodiode; temperature range ambient to 120 degrees c in 1 degrees increments; nebulizer gas nitrogen; inlet pressure 60-80psig; operating range 1.0-2.0l/min; digital mas flow control; mobile phase flow control to 3.0ml/min; analog output 1v or 10mv full scale

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

T01200
