Overall Height:

8.000 inches

Overall Width:

4.000 inches

Special Features:

A direct readout photometer; depth is 1-5/8 inches; accurate to within +/- 1%; filter wavelength peaks 425, 485, 510, 555, 609 and 670 nm; bandpass 10nm; sample systems 13-mm ampules; tungsten lamp light source; blue enhanced silicon photodiode detector; 2-line, 16 character alphanumeric lcd display; powered by 4 aa batteries; battery life of 4000 readings

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No
