End Application:

Ground support equipment

Design Type:

Closed

Heating Method:

Gas

Test Unit Quantity:

1

Special Features:

Determines flash points in closed cup of liquid with a viscosity below 5, 5 mm²/s at 40deg c, or below 9, 5 mm²/s at 25deg c, and flash point below 93deg c; includes cables, gas tubing, gas flame ignitor, black insulating tube, reinforced plastic hose, ring clamp, fitted lid w/o probe, waste cup, tag test cup, ring clamp for gas tubing, cd documentation, test certificat

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No
