Body Diameter:

14.0 millimeters

Body Length:

50.0 millimeters

End Application:

Hi 98111 ph tester/meter

Body Material:

Plastic polypropylene

Product Name:

Multi-pin ph electrode

Instrument Type For Which Designed:

Ph/ion selective electrode meter

Industry Designated Name:

Spare multi-pin ph electrode

Ph Measurement Range:

+0.00/+13.00

Operating Temperature Range:

32.0 degrees fahrenheit plus and 158.0 degrees fahrenheit plus

Err Default:

Err default and err default

Internal Reference Element Type:

Silver

Err Default:

Err default

Err Default:

Err default

Special Features:

Spare multi-pin ph electrode with ceramic junction for general purpose, field applications; spheric tip diameter 5mm; max pressure 0.1 bar; temperature sensor and amplifier included

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A506n0
