**Body Diameter:**

14.0 millimeters

**Body Length:**

50.0 millimeters

**End Application:**

Hi 98111 ph tester/meter

**Body Material:**

Plastic polypropylene

**Product Name:**

Multi-pin ph electrode

**Instrument Type For Which Designed:**

Ph/ion selective electrode meter

**Industry Designated Name:**

Spare multi-pin ph electrode

**Ph Measurement Range:**

+0.00/+13.00

**Operating Temperature Range:**

32.0 degrees fahrenheit plus and 158.0 degrees fahrenheit plus

**Err Default:**

Err default and err default

**Internal Reference Element Type:**

Silver

**Err Default:**

Err default

**Err Default:**

Err default

**Special Features:**

Spare multi-pin ph electrode with ceramic junction for general purpose, field applications; spheric tip diameter 5mm; max pressure 0.1 bar; temperature sensor and amplifier included

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fig:**

A506n0
