Product Name:

Hpc total count swab test kt 25 tests

Special Features:

Swab hpc test kit, 25 tests, red, total count; mixed cellulose esters filter material; 0.45 micrometer filter pore size; samplers use self-contained dip testers to monitor microbiological organisms in liquids. Swab test kits use swab and sampler combination to monitor microorganisms on equipment and other surfaces; swab the surface and place back into the sterile buffer. Pour the buffer into the sampler container or a sterile membrane device, filter and incubate; just add an incubator to complete the system

Supplementary Features:

Storage temp: 15-30 degrees c

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No
