

View Online at <https://aerobasegroup.com/nsn/6630-01-580-7359>

Special Features:

Display: 3.5 digits; spectral response range: 300-700 nm

Supplementary Features:

High sensitivity and stability of the current amplifier means improved accuracy; high quality optical filters prevent interference between spectral lines; low levels of dark current and anode reverse current

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli
