Wattage Rating In Watts:

250.0

Frequency Rating:

50.0 hertz

Usage Design:

Tube

Design Designation:

Block

Product Name:

Cod test tube heater

Voltage In Volts:

230.0

Special Features:

Thermo-reactor with 25 vial capacity and 1 receptacle for a reference thermometer with stainless steel probe; temperature of reaction 105 or 150 deg. C; accuracy plus or minus 2 deg. C; approximately 30 minutes warm up time; aluminum block; 7.5 in. By 11.8 in. By 3.7 in.; 10.6 lb.; 0 to 120 minutes with acoustic alarm and automatic shut-off

Quantity:

25

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T396-b
