Overall Length:

8.700 inches

Overall Height:

2.200 inches

Overall Width:

4.500 inches

Special Features:

Can measure up to 12 parameters; measures rivers, lakes and seas; evaluates water quality - dissolved oxygen saturation percentage, conductivity, and seawater specific gravity; 5 interface languages; graphical display with backlight; glp features; up to 60,000 samples stored in 100 different lots; 4 size c ni-mh rechargeable batteries; password protection; no probes or accessories attached

Color:

Green

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:
