Overall Length:

30.0 inches

Overall Height:

51.0 inches

Overall Width:

32.0 inches

Voltage In Volts And Current Type:

115.0 ac

Product Name:

All weather refrigerated sampler

Special Features:

Has sd900 controller with 115v all weather cabinet. Control made of high impact injection molded abs, submersible, watertight, dust tight; cabinet made of low-density polyethylene. Graphics display 128 x 64 dot matrix backlit lcd, visible in direct sunlight.

General Description:

Has sd900 controller in 115vac all weather cabinet; micro-processor controlled thermostat maintains sample liquid at 4 degrees +/- 1 degrees c; can store/run 3 sampling programs; internal lithium ion battery maintains real time clock for 5 years; designed for harsh environment.

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A23900
