Body Material:

Plastic polypropylene

Ph Measurement Range:

+0.0 to 13.0

Reference Junction Type:

Fiber

Internal Reference Element Type:

Silver/silver chloride

Special Features:

Cloth junction/flow rate; electrolyte gel; spheric (3.0 mm dia) tip; screw cap connection; electrode for checker

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A506n0
