Measurement Unit:

Gram

Operation Method:

Manual

Unit Type:

Mechanical

Load Receiver Type:

Rod

Mounting Method:

Portable

Scale Range:

0-65direct and 0-650reading-10 times scale

Scale Smallest Increment Graduation:

Zero gram to 65in 5 gram increments

Control Device Type:

Automatic stop

Spring Type For Which Designed:

Tension

Torque Indicating Wrench Usage Feature:

Not included

Spring Travel Gage:

Not included

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T398-h
