Compressed Gas Cylinder Test Stand - Page 1 of 1

View Online at https://aerobasegroup.com/nsn/6635-00-181-2458

Mounting Type:
Floor
Drive Type:
Single head
Maximum Generator Diameter Accommodated:
18.000 inches
Driving Motor Transmission:
Not included
Electric Motor Blower:
Not included
Special Features:
8000 psi test capacity; air operated test pump; soft seated inlet/outlet check valves; 8 and one-half in. Dia. Calibrated test gage; 8000 psi
calibrated test cylinder; 18 in. Dia. By 72in. Tall water ja cket; 6 individually valved manifolded burettes, sizes: 0-12.5 cc, 0-25 cc, 0-50 cc,
0-125 cc, 0-250 cc, 0-360 cc; 18 in. Time vs pressure chart recorder; cylinder to be tested is enclosed in water filled jacket, pressurized
internally to specifiedtest pressurevolumetric expansion meassured via water displaced into calibrate d burette: pct permanent and elastic
expansions calculated from measured total and permanent volumetric expansion
Shelf Life:
N/a
Unit Of Measure:

Demilitarization:
No
Fiig:
T361-f
