Measurement Unit:

Pound

Operation Method:

Manual

Unit Type:

Hydraulic

Load Receiver Type:

Hook and push rod

Mounting Method:

Table

Scale Range:

1/4 oz to 200 lb

Scale Smallest Increment Graduation:

1/4 oz smallest increment

Control Device Type:

Automatic stop

Spring Type For Which Designed:

Compression and tension

Torque Indicating Wrench Usage Feature:

Not included

Spring Travel Gage:

Not included

Spring Maximum Outside Diameter Accommodated:

2.375 inches

Spring Maximumfree Length Accommodated:

10.000 inches

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T398-h
