Overall Length:

12.500 inches

Overall Height:

4.000 inches

Overall Width:

11.000 inches

Ac Voltage Rating:

115.0 volts or 230.0 volts

Frequency Rating:

Between 50.0 hertz and 400.0 hertz

Bearingoutside Diameter:

1.000 inches

Phase:

Single

Special Features:

Tests bearings up to 1.000 in. Dia; c/o transducer, transducer mount, and amplifier; 400hz oscillator w/1 mv rms output; manual attenuation switch; 115v or 230v porm 10pct, 50hz to 400 hz, 30w; formica case, transducer magnetically shielded, amplifier shielded; 15.0lb; accessories furnished: calibration kit, adaptor kit w/studs & rotors for r2, r3, r4, 34 size bearing

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A50900
