Accessory Components And Quantity:

2 ea diaphragm, 1 ea spanner wrench

Special Features:

Bench mtd; test capaci type 400 psi maximum bursting strength, max material thk capacity not rated; bursting mechanism rubber diaphragm type, hydraulic drive, wheel type speciman clamp, electric motor operated plunger, 1/4 hp, ac, 110-115 v, 60 hz, single phase, w/forward and reverse plunger shifting lever; indicating scale 0 to 400 psi range, 2 lbs smallest graduated div

Reference Number Differentiating Characteristics:

As differentiated by indicating scale 0 to 400 psi range

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T134-m
