Current Type:

Ac

Furnished Items And Quantity:

7cables: 10 ft 2/o w/connectors 2, 15 ft 4/o w/connectors 4; contact prds 1 pr; red paste 1lb; black and red powder 1 lb ea; remote cont cable ext; remote cont cable and pushbutton; residual field indicator spray gun 1; contact clamps 2; powder bulbs

Current Rating In Amps:

3000.0

Voltage In Volts:

220.0 and 440.0

Phase:

Single

Functional Classification:

Aa-5.6

Special Features:

30 pos cont switch; demagnetization

Frequency In Hertz:

60.0

Functional Description:

Used to inspect ferromagnetic materials and parts by means of the magnetic particle inspection method.

Entry Date:

70-04-01

Reference Data And Literature:

T.O. 33b2-4-11 and t.O. 33b2-4-14

Relationship To Similar Equipment:

INTE-RC-HAN-GEAB

Type/model Designation:

Kch-3g

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T264-a
