**Functional Classification:**

Aa-8.14

**Functional Description:**

Creates vibrations of known char for breakdown testing of any apparatus subject to vibration failure

**Entry Date:**

70-04-01

**Reference Data And Literature:**

Waugh equip.Co cml data

**Relationship To Similar Equipment:**

Functionally similar to all vibration testers; differs in minor design char

**General Description:**

36.000 in.Lg, 22.000 in.W, 16.000 in.H; table mtd; horiz motion; 18.0 by 18.5 in.Table; 0 to 0.0625 in.Vibration amplitude range; 150 lb, 12 g load limit; 600 to 3600 cycles per min automatic table freq, var freq control; put power by 3 hp elec mtr 220 vac, 60, three phrase; nonmobile

**Type/model Designation:**

Vmj-2-hb

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A23900
