Special Features:

Tube data, 1, single focus nonrotating anode radiographic, water cooled; input to tube, 50 kv to 275 kvp, 2-1/2 ma to 10 ma, half wave rectification, self rrectification; input to unit, 180 to 500v, 60 cycles, three phase; mobile, wheel, pneumatic tired wheels; synchronous radiographic 1 hr, 3 sec increments

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A509j0
